

Product change notification

PCN14-03 – PTS525

Document revision

Revision	Date	Description	Author
A	October 20, 2014	Creation	J. Smolinski

Summary

1. Purpose	4
2. Overview	4
3. Part Numbers Affected	4
4. Reason for Change	4
5. Date of Application	4
6. Acknowledgement	4
7. Support	4

1. Purpose

C&K Components, as a design and manufacturing company for micro-miniature tact switches, is constantly looking to improve the manufacturing means and processes in order to continue serving its customers with the highest performance level. As part of this continuous improvement policy, C&K Components is updating its part numbering for the PTS525 series

2. Overview

This PCN is the third step in our PTS series part numbering modifications, initiated last year on PTS645 and continued recently with PTS125. This document is related to the PTS525 series top actuated. We've also added new versions with J terminals and ground pin option

These « MK2 » series are exactly the same in dimensions and performances

3. Part Numbers Affected

See table in Annex 1 – page 5

4. Reason for Change

We needed to open more options in our part numbering systems to accommodate different new options for the PTS series

5. Date of Application

- Last time buy: Non applicable
- **Product Change is immediate. The current orders placed with C&K with the current part number and designation will be delivered accordingly. This change applies for new orders only. Cases requiring further investigation before change will be handled individually**
- **Stock return on the basis of part numbering change will not be accepted as none of the dimensions or characteristics are affected by this PCN**

6. Acknowledgement

We kindly ask you to acknowledge this information to your Sales Representative

7. Support
