Dear Valued Customer

Please be advised that we are in the process of discontinuing the RAFIX 22FS series from RAFI and will be coming out with a new re-designed, lower profile RAFIX 22FS+. The last time buy for the RAFIX 22FS will be on 11 April 2013.

The new RAFIX 22FS+ is not a direct replacement for the RAFIX 22FS because the brighter colors will not match the older 22FS. The new design is low profile and offers a faster and more cost effective installation options than the older design. Cross reference list of all effected part numbers are attached for your reference.

We regret any inconvenience this may cause during the transition period.

1. Change Impact

The new 22FS+ will physically fit where the old 22FS is now used.

2. Timing

The last day orders can be placed for the 22FS will be 11 April 2013.

3. Support

Please contact Customer Service or your local sales representative.

Best Regards,

Vincent Acampora
